R.I.P Grandma Daisy even though it will be unusual not seeing you or hearing that playful banter between you and Karen, I take great comfort in knowing that you are forever free from the illnesses that plagued you. Now, you've gotten on the road to glory and you've got your starry crown. My condolences go out to the family at this most difficult time.

This was oldest sister. If you knew her you had to fall in love with her. There was never a dull moment if she was around. We, who remain will never forget her. It was a joy to have her in our lives. Some say I look a lot like her and I'm happy about that. Our family loved to sing she was a great singer especially when she would show off with "Christian Automobile" lol. I love to sing and one day I will join her in that Heavenly choir. Until then sis, rest in heaven. Your loving baby sister..

*I am deeply saddened that Grandma Daisy has transitioned and has moved to a better place. My deepest sympathy goes out to the family. Grandma Daisy reminded me so much of my mom who passed away at the age of 96. She was such a joy to watch. Thanks for sharing her with us. I know she will be singing with the other angels in heaven. I will always remember her saying "Let go, Let God." R.I.H. Grandma Daisy. She will truly be missed. Prayers will continue to go out to the family.

“ To the family:

I watched Grandma Daisy Videos regularly on “Grandma Daisy Healing Touch Companion on social media. “Grandma Daisy suffered from dementia . I was Blessed to see how her family cared for her and allowed others to enjoy her as well . I sing Christian Automobile by the Dixie Hummingbirds all the time because of her (her favorite song) and enjoyed you saying phrases like “Let Go and Let God , When you do Good -You go Up ,Up ,Up and When You do Bad -You Down,Down,Down. Let Go of that Zero and Get You a Hero . There were so many others ,but when you weren’t having a good day you would be quiet or say Leave Me Alone”. Dementia is a group of conditions characterized by impairment of at least two brain functions, such as memory loss and judgment and it doesn’t have a respect of person . There isn’t a cure for this disease as of yet, but there are some medications that will slow down the process ;however having ,patience,keeping your love one active , not taking their actions personal ,and giving them lots of Understanding and Love will help them with coping with this disease. Will Miss You , Rest Well.

“ I followed Grandma Daisy on Instagram. While always witty, my most favorite videos were when she would sing. Karen and Mozelle are true angles to watch after her the way they did. My Aunt was 92 when she passed away, and when I would visit her in the assisted living then later in her Board and Care, I noticed many of the other residents NEVER had a visitor. I knew each and every one of them by name and could listen to their stories (wisdom) for hours if they would have let me. Perhaps your care of Grandma Daisy is a symbol for those younger folk to never throw away or disregard the elders. May Grandma be resting in peace and I am sure she is still singing. May God's loving arms surround your family at this time of sorrow.

“ I loved watching Grandma Daisy on social media. I am an avid fan! Though I wanted to, I wish I could have visited her. I did meet her daughter Mozelle when I was visiting at the mall. I loved the way that she and Karen cared for Grandma Daisy. Thanks so much for sharing her with the world, we definitely love her and your family. We shall miss her but we know she went UP UP UP as she often talked about! May she forever live in our hearts, her legacy and love in her family and may she rest in the presence of God! 🙏🕊️
