“ For years, I drove home from work and saw Mr. Sylvester's cats sunbathing on his cement steps. One day our group decided to ask him if he needed help caring for the cats as they seemed to be multiplying. The Cat Corner TNR group stepped in to help, and over the past couple years, we spayed and neutered the cats on his property and took many kittens into the Cat Corner family. I am grateful that Mr. Sylvester let us into his world. I remember when he called me upset about a kitten meowing under his house all night. We rescued that kitten, and he has since been adopted. I was touched when Sylvester called me from the hospital asking me to make sure that his cats were fed while he was gone. Of course we obliged. Even when he didn't feel well, before he went to the hospital, he fed his cats. He was especially fond of Grey Boy. He knew exactly what cats still needed to be trapped and fixed while we worked with him. He knew what cats were pregnant or had babies. And Mr. Sylvester went home to the Lord right after the last cat was trapped and fixed. I like to think that Mr. Sylvester is at home, pain-free, and happy among the cats at the Rainbow Bridge.

DS

Thank you for being there for his cats. They was the love of his life. This is his sister, Dianne. I appreciate everything you've done for my brother.
