“ I met Forest about 2 years ago. Amazing mind, and no end to his stories. He had an extremely broad range of experience and knowledge, and I enjoyed working with him on projects because he always thought outside of the box. One big difference with Forest was that when he talked about doing something, he actually could. Whether it was designing, constructing, or repairing, he knew what to do or could figure out a way.  
He loved his daughter, his dogs, and being outdoors.  
He is missed.

“ Annie I hurt for you right now on this Great Loss. I know he was so very Proud of His Girl. Forrest was a very Positive light in my life since the late 80's he had a way about him that just drew you in for sure. He taught me a lot about working out and eating right and pretty much thought that gave him the right to comment on my weight haha. No matter how many years went by he was just the same he never changed. I will always love that ol' blue eyed man and very thankful to have had you two in my life. I will keep sharing memories I have of him with you as they come back to me :)
